Hua Yang launches Tower A of Citywoods project

KUALA LUMPUR: Property developer Hua Yang Bhd has launched Tower A, the second tower of its Citywoods serviced apartment project in Johor.

Like Tower B, which was launched in September 2014, Tower A would also boast of contemporary designs and a unique layout.

“With only nine units per floor and three lift cars, residents will be able to enjoy unparalleled privacy and low-density living,” it said in a statement, adding that 90 per cent of Tower B had been sold.

With an estimated gross development value of RM216 million, Citywoods comprises two 19-storey residential towers that sit on 0.89ha of freehold land in Jalan Abdul Samad, with access to major highways, including the Eastern Dispersal Link and Coastal Highway.

“We believe our strategically located and affordable projects such as Citywoods will address the needs of first-time house owners,” said Hua Yang Johor branch manager Casey

Wong in the statement.

Tower A offers three design layouts, with prices starting from RM383,000 (Bumiputera lots) and RM446,000 (non-Bumiputera lots).
